1. Near the small Baltic sea resort of Lohme on Rügen Island, work has begun on the construction of a military port; workers on the project believe that it will be a Seepolizei installation. Construction of the Soviet submarine base near Saßnitz on Rügen is proceeding independently.

2. Laborers have been recruited from throughout the DDR to work on a Seepolizei training area near Prora and Binz. At the same time, numerous deliveries of construction material and equipment are arriving at the site. It is believed that the training area will be completed by spring, 1953.
